

LampPost™ - The Remote Communication Solution!

LampPost™ allows you to share information with a remote site, physician's office, vendor, HIE, or other off-network location.

Perhaps you simply want to secure information transmitted between multiple endpoints without firewall changes.

LampPost™ is the answer.

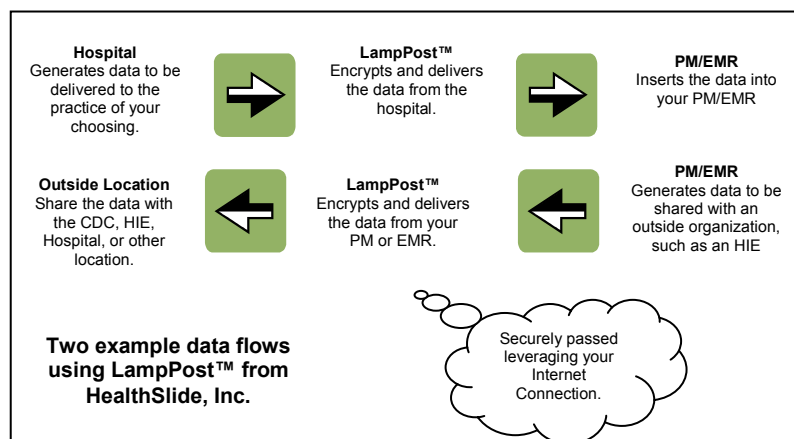

LampPost™ can collect information from most Practice Management Systems (PM) or EMRs and relay that information to any destination, safely, and securely. In addition, information can be sent to the PM or EMR from hospitals or other locations.

LampPost™ captures information from one location and encrypts it for guaranteed delivery to another location such as your integration environment or an HIE (Health Information Exchange).

LampPost™ can communicate with web services, such as for eligibility verification—or any other web service required to help your business run smoothly.

LampPost™ is quick and affordable to deploy. There is seldom need to modify firewalls. Simply place the ENERGY STAR compliant LampPost™ device inside the remote location and forget about it.

HealthSlide, Inc. specializes in e-health integration products and services that enable clients to thrive in the information-driven economy. In addition to its LampPost™ solution, HealthSlide created Boomerang, an Enterprise Application Integration solution. HealthSlide also produces MedView, a web-browser physician access solution that is built upon

relational repository technology and is targeted to healthcare enterprises with disparate information systems relying on interface engine technology for integration. Through its consulting, outsourcing, and e-solutions services, HealthSlide provides these segments of the healthcare industry with the tools and strategies they need to effectively serve customers and capitalize on e-commerce opportunities. HealthSlide's powerful e-health solutions -- coupled with the company's experience providing innovative solutions to the healthcare industry -- enable clients to meet their fiscal challenges without compromising clinical quality.

Contact HealthSlide at 865-692-1002 ext. 202 for more information on LampPost™ or any of our products or services.
